We Empower 2100 Young Change Makers To Ignite Solutions for People & the Planet

Building on a solid foundation of impact knowledge to incubate, co-fund and scale up social enterprises in Eastern Europe

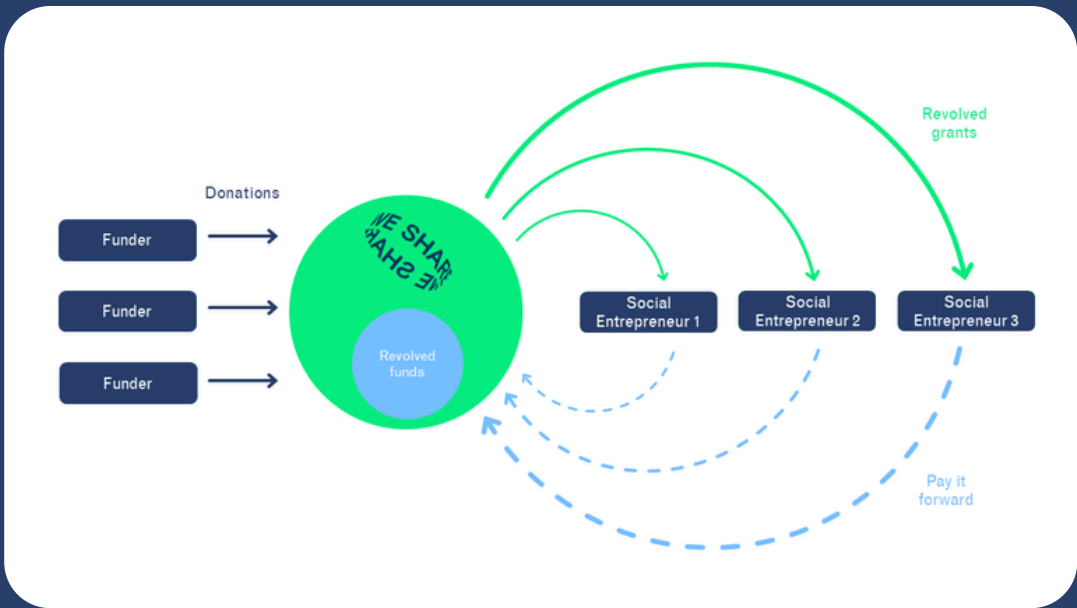

Supporting Social Entrepreneurs And Solutions For The Future

We are incubating **200 enterprises** and funding the **45 best ones** with pre-seed funding to create solutions for the future.

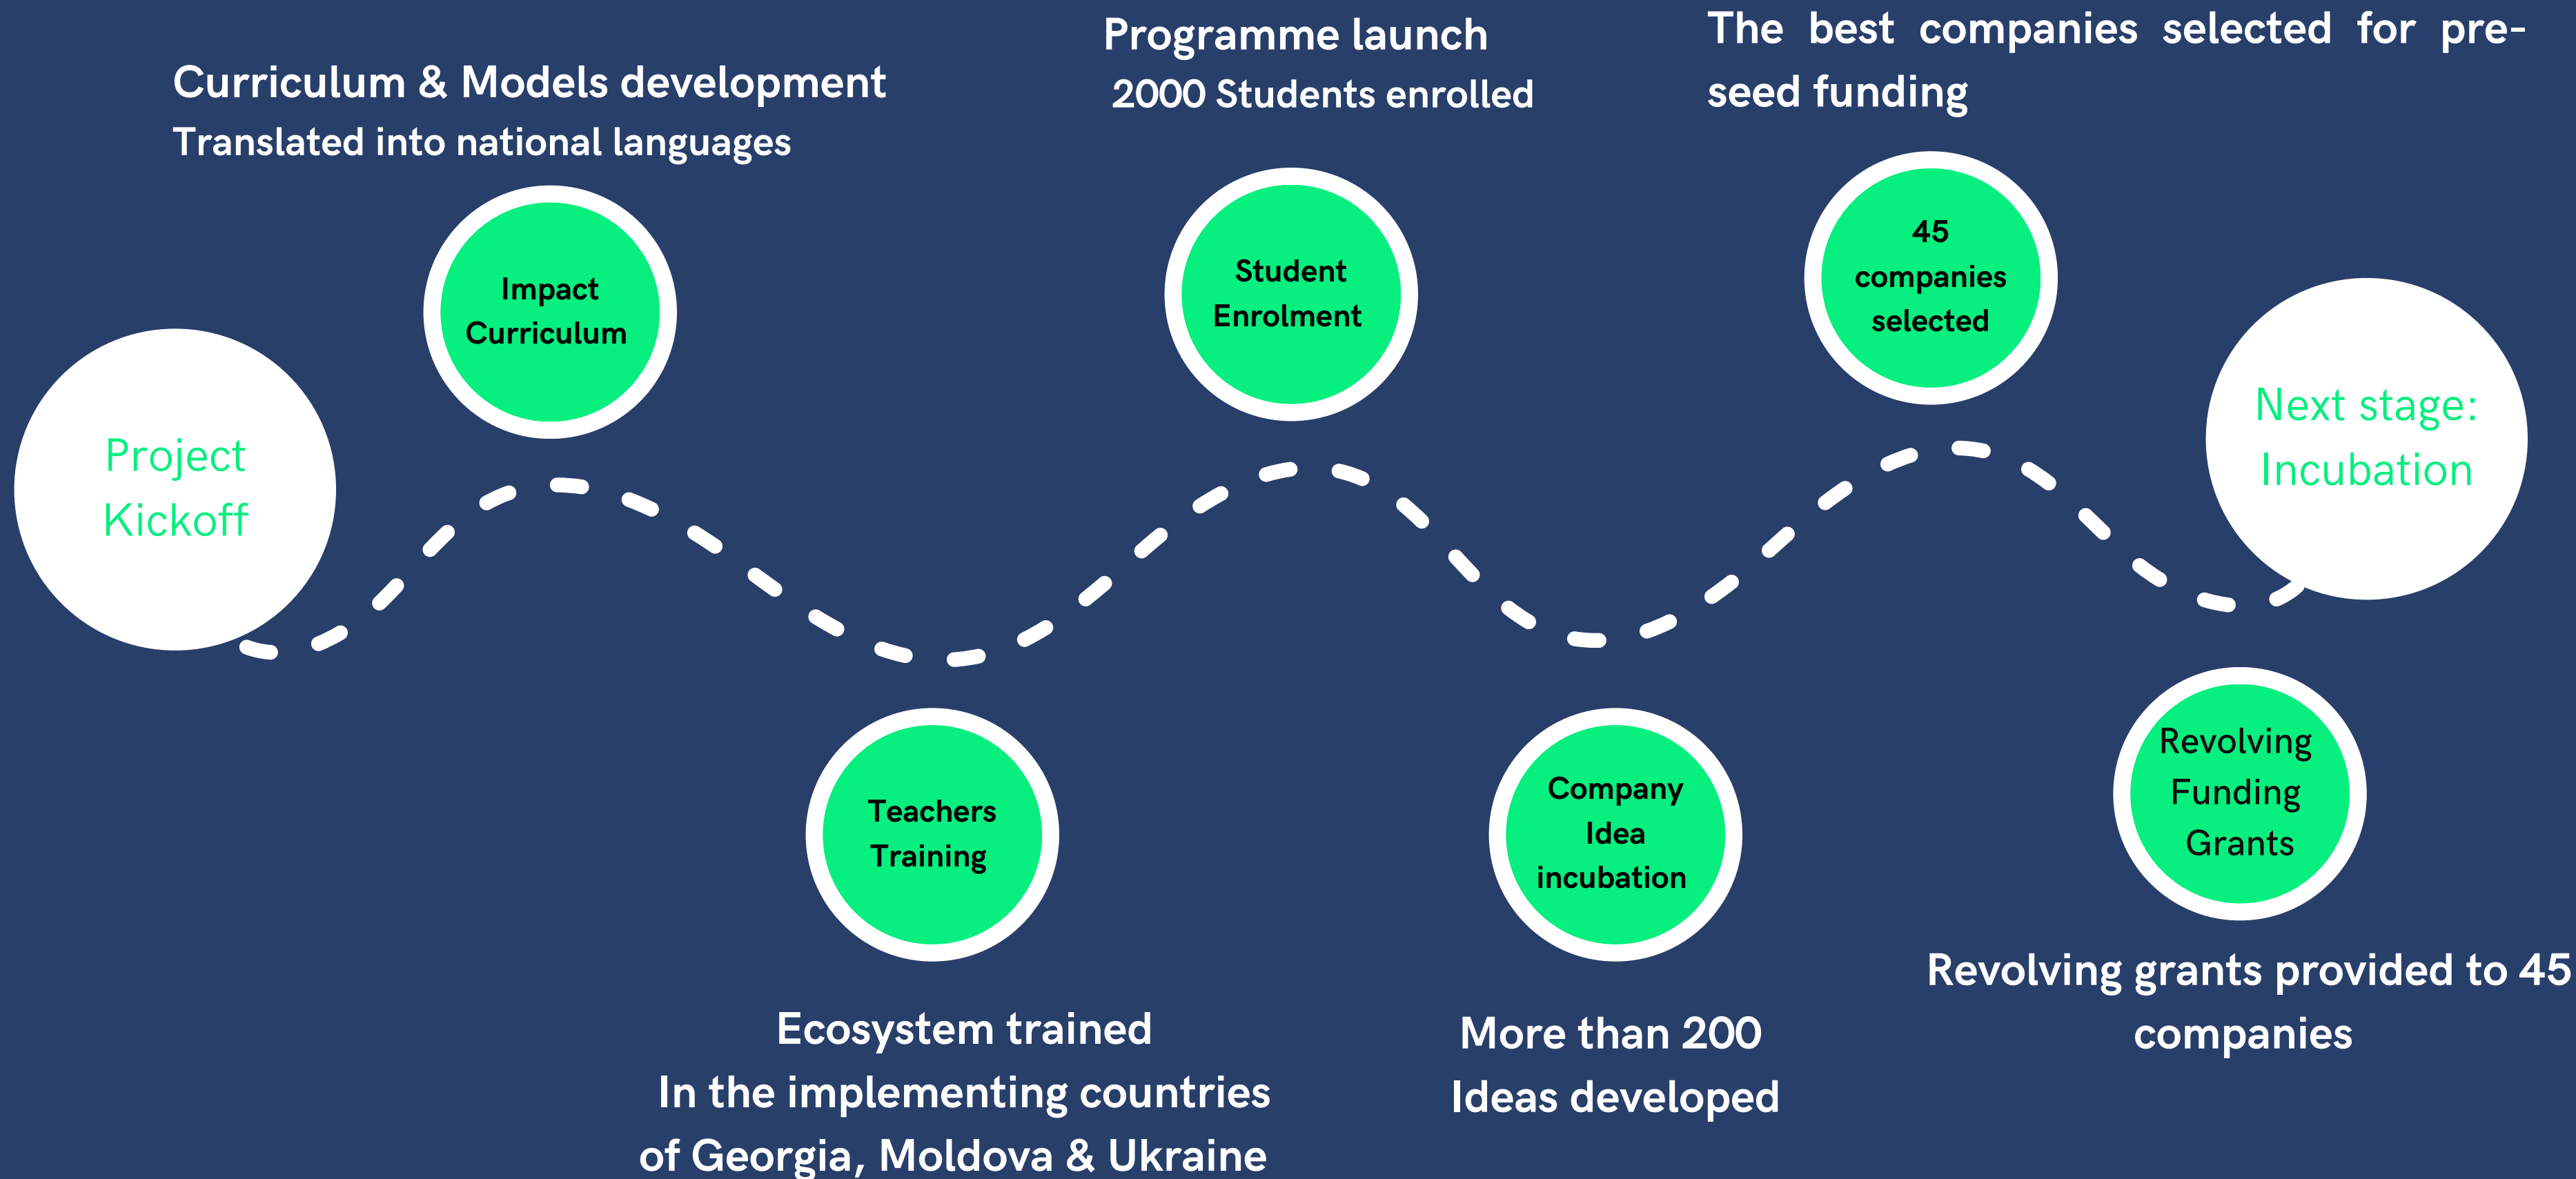

Impact Focused Incubation Program

We created an impact-focused program - Building Back Better Through Social Entrepreneurship **co-funded by the European Commission's** EU4Youth funding program.

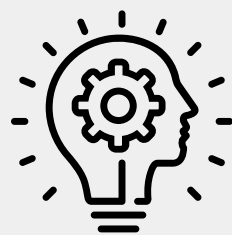

Funding Facilitated By The Revolving Funding Model

Maximising the grant potential with the **revolving funding model**. Allowing to disburse donations directly to the social entrepreneur.

Tailored Accelerator Programme To Incubate Young Social Entrepreneurs in Eastern Europe

Key Activities

Our tailored project carries out the entire process from pre-accelerator to pre-seed funding to enable the young social entrepreneur to scale up.

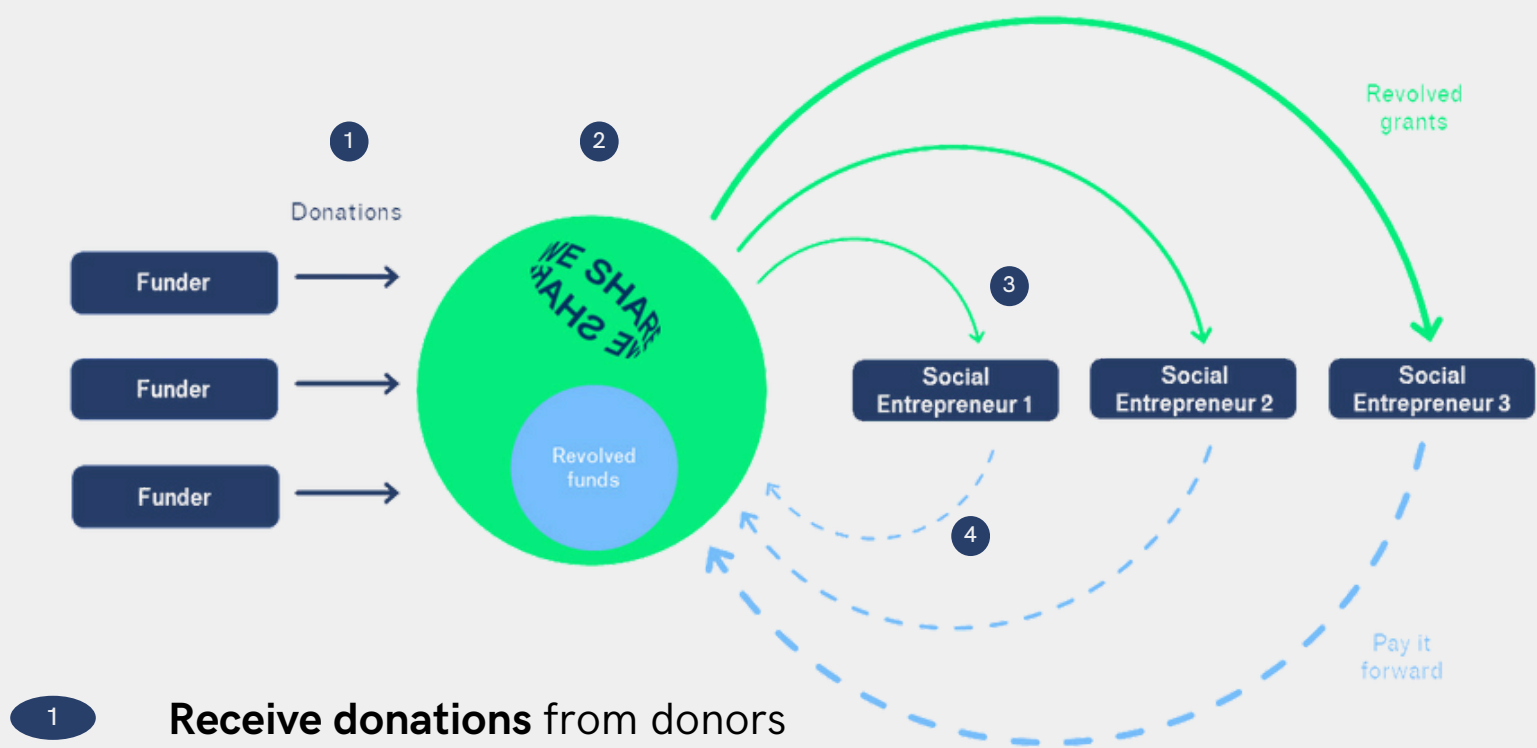

We create early-stage solutions with high-impact potential and build a community of entrepreneurs willing to share forward their knowledge enabling further growth.

We create ecosystem engagement of potential funders and de-risk the pipeline for future investments.

Donations Disbursed Through The Revolving Funding Mechanism

We Share Forward' Foundation Revolving Funding Model

- 1 **Receive donations** from donors
- 2 **Tailor-made agreement** (through diverse mechanisms) with social entrepreneurs.
- 3 **Grant transferred** to social entrepreneur.
- 4 After social entrepreneur is successful, **social entrepreneur shares part of their success** with the next generation of social entrepreneurs, recycling the donations and enabling them to support more social entrepreneurs in the future.

Fundraising in progress	Pre acceleration program: Phase 2 -continous prototype development	White paper guidebook launch
	Connecting with potential follow up investors for community and knowledge support continuation	Impact measurement and management reporting

Co-Fund with Us:

All Activities Co-Funded by the European Commission. Raising Donations for Seed-Funding

Take part in supporting early stage social entrepreneurs tackling societal challenges, with seed funding (revolving grants).

Funding goal is min 95 000 € in revolving grants for 45 top performing companies across Moldova, Georgia, and Ukraine

Co-Fund A Domain

Become the co-funder in your preferred domain of impact or **country**. Take part in supporting the most promising social ventures with revolving grants.

Co-Fund The Ecosystem

Become a co-funder to the program and take part in supporting the most promising social ventures **across** Ukraine, Moldova and Georgia with us.

Why We Revolve Grants

The social entrepreneurs supported by your donations through We Share Forward Foundation's revolving mechanism, are asked to donate part of their future success to other social entrepreneurs once they are self-sustaining. These donations will be re-deployed again in new social enterprises and the full cycle starts again; resulting in a self-sustaining source of philanthropic capital to be deployed exclusively to early-stage social enterprises.

Benefit for Donors

MEANINGFUL AND HIGH IMPACT RETURN FOR THE ECOSYSTEM

A unique opportunity for funders to maximize their impact on both social entrepreneurs and communities, creating a sustainable cycle of positive change.

DE-RISKING THE PIPELINE, MAXIMIZING FUTURE IMPACT

Social enterprises prioritise impact over profit and often struggle to secure early-stage funding to enable the development of their product.

Our program aims to bridge this gap by providing early-stage funding with early-stage acceleration to de-risk the pipeline allowing them to scale. Early-stage funding further de-risks the pipeline to impact investors who wish to invest with follow-up funding.

YOUR SUPPORT IS 100% ALLOCATED TO THE SOCIAL ENTREPRENEUR

Your donation will be 100% allocated to the social entrepreneurs through the revolving funding grant. The funding will be provided to each social entrepreneur to scale and maximise their impact. We Share Forward asks for a 5% contribution to cover only costs as a non profit organization. This amount is included in the 95.000 euros.

COSTS FOR TAILORED PRE ACCELERATOR PROGRAM ARE ALREADY COVERED

Co-funded by the EU4Youth EU Funding Program the project is financed to accelerate youth social enterprises in the Eastern European Neighbourhood.
