

CoP in Health: Elucid Social A successful cofunding deal

- Elucid provides affordable quality access to healthcare for small-holder farmers.
- Within the Community of Practice in Health, We Share Forward Foundation provided a revolving grant to support their projects. We Share Forward Foundation, Bayer Foundation and Anesvad Foundation were the main donors that participated in the revolving grant.
- Impact is created and Elucid supports the next social entrepreneur by paying it forward.

Elucid Milestones

- Successful implementation in Sub-Saharan Africa and Latin America in partnership with local and national health insurance and other organizations.
- Introduced a digital wallet enabling beneficiaries to save, receive, and pay for healthcare fostering better financial resilience for small-scale producers at large.
- Conducted a feasibility study in Cote d'Ivoire in the cotton sector and in Madagascar in the cocoa sector, which highlighted the importance of health insurance in addressing poverty and child labor. It also showed that health programs positively impact farmer loyalty and productivity.
- Started new partnerships in the artisanal and small-scale mining sector, and coffee and cocoa.
- Secured significant funding to revolutionize supply chain sustainability.
